Summary

- Full-Stack Software Engineer with over 2 years of experience developing scalable applications for the fintech and aerospace sectors. Currently a Software Engineer at Rocket Factory Augsburg, specializing in React, Python, TypeScript/JavaScript, and modern cloud architectures (AWS). AWS Certified Cloud Practitioner (CLF-C02).

Professional Experience

•Rocket Factory Augsburg (RFA) *06/2025 – Present*
Software Engineer Working Student Augsburg, Germany

- Built an internal engineering document management system from requirements to production, later adopted company-wide.
- Designed and operated a full-stack application using **FastAPI**, **React**, and **PostgreSQL**, deployed with **Docker Compose**, **GitLab CI/CD** pipelines, and **Portainer**.
- Implemented core workflows including automated DOCX-to-PDF conversion, document versioning, and approval workflows.
- Owned development and maintenance of multiple internal production applications, resolving incidents and improving system reliability.
- Improved performance and fault tolerance by moving long-running tasks to **Celery** and **Redis**, and expanded test coverage with **pytest** and **Playwright**.
- Integrated the **Personio API** with the central user service to synchronize employee data and automate account lifecycle, access control, notifications, and cross-application user provisioning.
- Reworked monitoring across internal applications by migrating from **Sentry** to **Grafana** and **Loki**.

•Bouygues Telecom *06/2024 – 05/2025*
Frontend Engineer Intern – Internship

- Developed and maintained internal business applications at Bouygues Telecom, working with the frontend team on the Wholesale and CDP back-office tools.
- Built React and TypeScript interfaces with reusable components and forms supporting business workflows.
- Maintained the CDP back-office, fixing defects and improving user journeys.
- Integrated Node.js APIs, including data validation, loading states and error handling.
- Contributed to Jest tests, Git code reviews and GitLab CI pipelines, with development tracked in Jira.
- Skills: React, TypeScript, JavaScript, REST APIs, Jest, Git, GitLab CI/CD and Jira.

•Talan Tunisia *06/2023 – 12/2023*
Software Engineering Intern – Full Stack Development Tunis, Tunisia

- Delivered HR platform features including profile management, document workflows, leave tracking, and analytics dashboards using **NestJS**, **React**, and **PostgreSQL**.
- Established a **Jenkins** CI/CD pipeline with **Docker** to streamline deployments and support more reliable release workflows.
- Created a task and meeting management platform with **Symfony**, **Vue.js**, and **MySQL**, including role-based access control and collaboration features for team coordination.

Technical Skills

- **Languages**: Python, TypeScript, JavaScript, SQL
- **Frameworks/Libraries**: React, Node.js, Vue.js, FastAPI, Django, NestJS, Spring Boot, Celery
- **Cloud & DevOps**: AWS (EC2, S3, Lambda, CodePipeline), Docker, Docker Compose, Portainer, Jenkins, GitLab CI/CD, Grafana, Loki
- **Databases**: PostgreSQL, MongoDB, Redis (Cache)
- **AI & ML**: Copilot, Claude Code, MCP Integration, OpenAI/Groq APIs, Hugging Face, Prompt Engineering
- **Engineering**: Microservices, Event-Driven Architecture, REST API Design, GraphQL, TDD, Agile/Scrum

Education

•ESPRIT School of Engineering *09/2022 – 06/2025*
Engineering Degree in Computer Science (M.Eng. Equivalent) Tunis, Tunisia

•Hochschule Schmalkalden *10/2024 – 03/2025*
Exchange Semester – Master in Computer Science Schmalkalden, Germany

•Preparatory Institute for Engineering Studies *09/2020 – 06/2022*
Intensive Mathematics, Physics & Computer Science Tunisia

Certifications

- **AWS Certified Cloud Practitioner (CLF-C02)** – Amazon Web Services

Languages

- **English**: C1 **German**: A2 **French**: C1 **Arabic**: C2
